

1

Task 1

Use the clues to find the missing digits.

--	--	--	--

The whole number has a digit total of 19.

The thousands digit and the hundreds digit have a digit total of 10.

The tens digit minus the ones digit equals 1.

The hundreds digit minus the tens digit equals the ones digit.

Week One

Task 3

A whole number is rounded to the nearest 10, giving the answer 200.
What could the number have been?

--	--	--	--	--

Task 5

Complete the sum.

	6	0	0	2
